Meetings and Events Guide

SVH-EVT-001 | Version 1.3 | CURRENT | Effective 2026-10-01

Owner: Director of Event Services | Audience: Event sales / organizer planning reference

7777 A Street, San Diego, CA 92101 | 855-755-8575 | guest@skyviewhotel.site

EVT-01 / Venue inventory and planning capacities

Venue	Area / dimensions	Theater	Classroom	Banquet	Other
Harbor Conference Room	2,400 sq ft / 60 x 40 ft	160	96	120	Reception 180
Bay Conference Room	1,200 sq ft / 40 x 30 ft	80	48	60	Reception 90
Coronado Boardroom	480 sq ft / 24 x 20 ft	-	-	-	Boardroom 18
Grand Exhibition Hall	12,000 sq ft / 120 x 100 ft	600	360	400	Reception 800; exhibition 450 peak

What the numbers mean

Fictional planning limits assume clear setups; production, stages, buffets, registration and access needs reduce usable space. A dash means the setup is not offered. These are not certified occupancy limits. Grand Hall's 800-person reception plan is separate from the hotel's 830-person sleeping capacity.

Exhibition configuration

The Grand Hall reference configuration has 50 booths measuring 10 x 10 ft, with aisles and circulation allocated in the plan. The peak planning attendance is 450 people including exhibitors, staff, vendors, and visitors; a suggested mix is 100 booth staff and 350 visitors. Booth count does not imply unrestricted attendance.

Space selection

For 120 classroom attendees, Harbor's 96-seat classroom limit is insufficient; consider Grand Hall subject to an approved layout. For 16 in a board meeting, Coronado's 18-seat boardroom plan is suitable before additional equipment or access requirements are assessed.

Planning data only: no fire-marshal approval, structural load rating, rigging capacity, loading-dock height, or certified evacuation drawing is supplied. Event Services must verify these before a real event.

EVT-02 / Rental products, hours and audiovisual scope

Venue / item	Illustrative base rental	Included scope
Harbor Conference Room	$1,800 per event day	One standard setup, existing furniture, standard cleaning.
Bay Conference Room	$950 per event day	One standard setup, existing furniture, standard cleaning.
Coronado Boardroom	$450 per event day	Existing boardroom table and chairs.
Grand Exhibition Hall	$6,500 per event day	Empty-hall rental, one agreed layout, standard cleaning.
Meeting AV package	$350 per room per event day	One display/projection solution, two wireless microphones, and basic setup check.
Exhibition power drop	$85 per ordered booth per event day	One preapproved standard power drop; no high-load or specialist equipment commitment.

Access window

Standard contracted access is 8:00 a.m.-10:00 p.m. An overnight setup, early load-in, late strike, rehearsal day, or event beyond that window needs a written schedule and quotation. Guest-room check-in and checkout times do not extend event-space access.

What requires a separate quote

Dedicated internet, recording, livestreaming, staging, rigging, specialist lighting, technician attendance, security, custom furniture, and after-hours labor are not included. A meeting AV package does not guarantee simultaneous support across rooms. Event Services confirms equipment, staffing, and compatibility in the BEO.

Pricing limitations

Rental and package prices are fictional training references before applicable quoted charges. No occupancy permit or technical certification is created by paying rental. No fixed event discount, tax percentage, or waived-fee promotion is stated.

EVT-03 / Catering, guarantees and estimate example

Catering product	Illustrative base price	Service description
Continental breakfast	$24 per person	Pastries, fruit, coffee and tea for an agreed service window.
Working lunch	$34 per person	Chef-selected buffet or boxed format confirmed in the BEO.
Dinner buffet	$68 per person	Two main selections, sides and dessert, subject to confirmed menu.
All-day coffee/tea	$18 per person per day	Scheduled replenishment during contracted event hours.

Service charge and taxes

For this fictional rate card, a 22% catering service charge applies to the catering subtotal only. It does not apply to room rental or AV in these exercises. Tax rates and any real-world charge disclosures are intentionally omitted. Do not label the service charge as a tip, calculate a final tax-inclusive quote, or invent a gratuity policy from this packet.

Attendance guarantee

The organizer provides the final attendance guarantee by noon Pacific Time three business days before the event. For this training rule, business days are Monday-Friday; no holiday exception is modeled. Catering is billed at the greater of the final guarantee or actual served count. Reductions after the deadline do not reduce the guaranteed charge; increases require written availability confirmation.

Worked estimate: 60-person lunch

Sixty working lunches at $34 are $2,040. The 22% catering service charge is $448.80. Bay rental is $950 and the optional AV package is $350. The known subtotal is $3,788.80 before unspecified taxes or other agreed services. This example assumes a compliant 60-person banquet layout and no extra production footprint.

Dietary needs

Collect dietary requests at least seven calendar days before the event. Ask the chef to confirm what can be accommodated. No allergen-free kitchen, allergy certification, or medical suitability is promised. Label the agreed selections and tell the organizer about any unconfirmed request.

EVT-04 / Booking, deposits and change control

Inquiry and tentative hold

Record event purpose, dates, attendance, setup, room needs, catering, AV, access windows, accessibility needs, and the organizer's authorized contact. A tentative space hold lasts five business days unless Event Services states a different written expiry. A hold is not a confirmed reservation.

Milestone	Fictional booking requirement
Confirmation	Signed agreement and 25% of the estimated contracted total paid as deposit.
30 calendar days before event	Cumulative paid amount reaches 75% of the current estimated contracted total.
7 calendar days before event	Remaining estimated balance due; reconcile approved changes.
After event	Issue final reconciliation for actual approved additions or outstanding differences.

Event cancellation schedule

The signed agreement governs. In this standard training schedule, cancellation 61 or more calendar days before the event retains the 25% deposit; 31-60 days incurs 50% of the contracted estimate; 8-30 days incurs 75%; 0-7 days incurs 100%. These are total cancellation liabilities, with amounts already paid credited toward them, not added on top.

Banquet event order

The BEO records date, room, contact, setup diagram reference, schedule, attendee guarantee, menu, dietary notes, equipment, access arrangements, charge routing, and responsible department approvals. The organizer approves the BEO no later than seven calendar days before the event, with the later final catering guarantee recorded as a controlled update.

Changes and signatures

Only Event Services issues contract amendments and revised estimates. Changes to dates, setup, attendance, power, vendors, or access hours require written approval. Front desk statements and assistant drafts cannot bind a new price, waive a deposit, or amend a signed agreement.

EVT-05 / Exhibitor logistics and event-day checklist

Exhibitor planning

Request a booth list, exhibitor contact role, shipment count, installation needs, and power requests at least 14 calendar days before the event. The reference hall layout supports 50 standard booths. Event Services reviews custom stands, vehicles, food sampling, tall structures, suspended items, and unusual equipment before acceptance.

Deliveries and storage

Deliveries may arrive no earlier than two business days before the event after written acceptance. Label each shipment with event name, event date, organizer name, and package number. The organizer supplies a count and carrier contact. Storage space is limited; early deliveries, hazardous goods, perishables, and freight requiring special handling are not automatically accepted.

Load-in and load-out

The BEO defines the actual receiving point, vehicle schedule, vendor check-in, equipment route, and authorized labor. This corpus does not specify a real loading dock, lift rating, ceiling rigging point, or street permit. Keep aisles, accessible routes, and exits clear. Obtain facility approval for all power arrangements and never substitute a model-generated technical instruction.

Event-day lead checklist

Confirm the authorized organizer; compare the room to the approved layout; verify catering counts and labels; check AV with the supplier; review the event schedule and escalation contact; confirm registration and wayfinding; inspect clear circulation; record approved changes; and schedule closeout. Track actual peak attendance against the event-specific approved limit.

Closeout

Event Services checks equipment returns, vendor strike, abandoned freight, damage observations, and the final service record with the organizer. Photograph or document defects only within approved privacy procedures. Finance reconciles approved additions. Unclaimed freight is referred to the organizer and manager; it is not treated as ordinary guest lost property.

For inquiries: 855-755-8575 | guest@skyviewhotel.site | www.skyviewhotel.site. Group room rates, allotment, pickup deadlines, and room-block concessions require a separate signed agreement.
